## Financing Biodiversity [based adaptation]

### NBI Lessons Learnt and our Audacious Plan

Developing Country Context  
 Finance Sources and Risk  
 The Lack of Pipeline and the Need for Cash  
 Rapid Solution Generation  
 We Need Audacious Collaboration

3

## These risks have specific financial consequences for business

4

## Does anyone know what a yield co is?

A yield co is a company that is formed to own operating assets that produce a predictable cash flow, primarily through long term contracts.

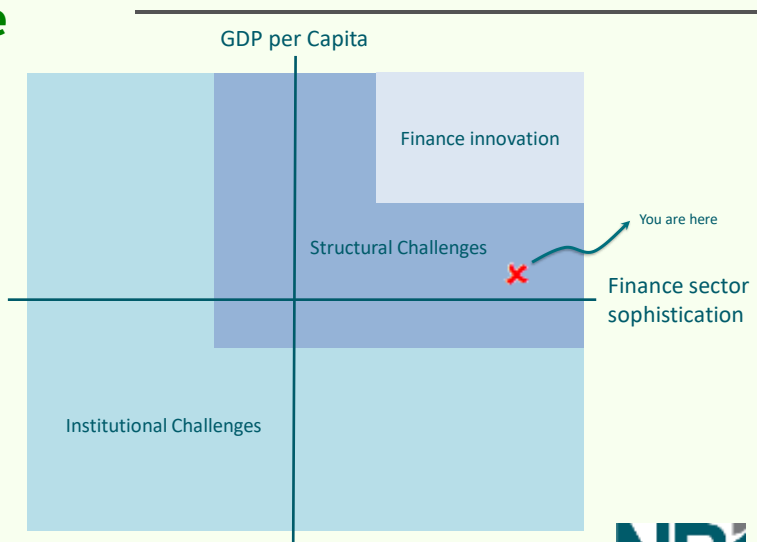

## What do you need for a yield co?

Underlying cash generating assets, institutional investors, a legal system in which you can register the company (special purpose vehicle).

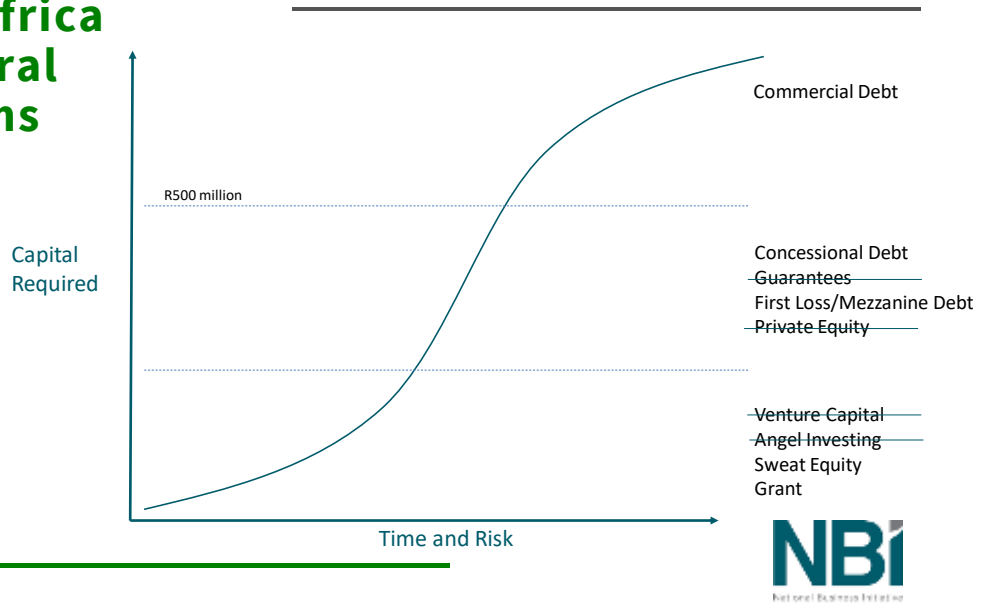

5

## Countries have a specific contexts

6

## South Africa Structural Problems

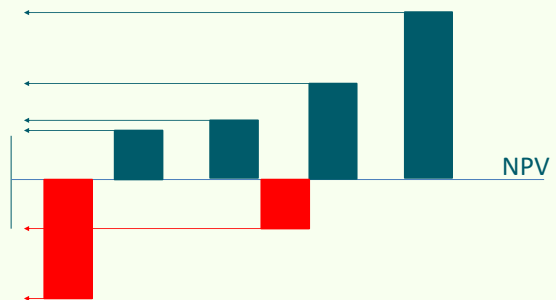

7

## Lack of a project pipeline

When I talk to the finance sector the one thing they persistently tell me is that there are no projects

For biodiversity and adaptation there is an additional problem: cashflow

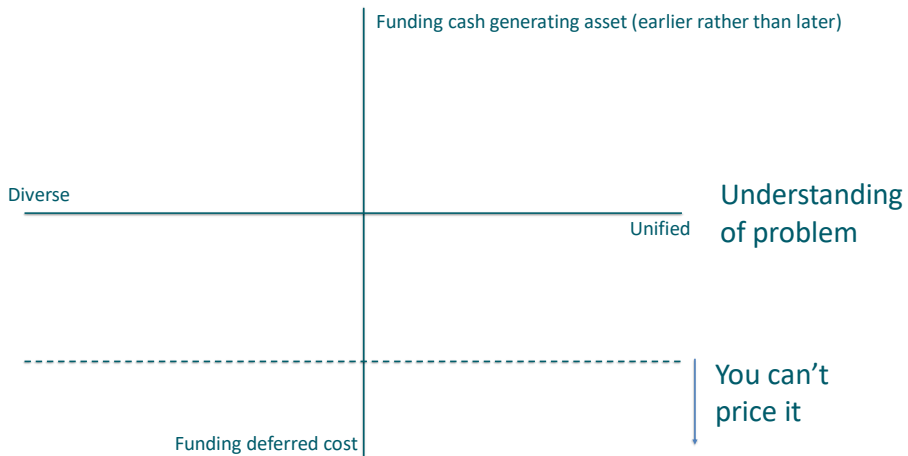

8

# Lack of a project pipeline

When I talk to the finance sector the one thing they persistently tell me is that there are no projects

For biodiversity and adaptation there is an additional problem: cashflow

# We Need Audacious Collaboration

## In Project Development

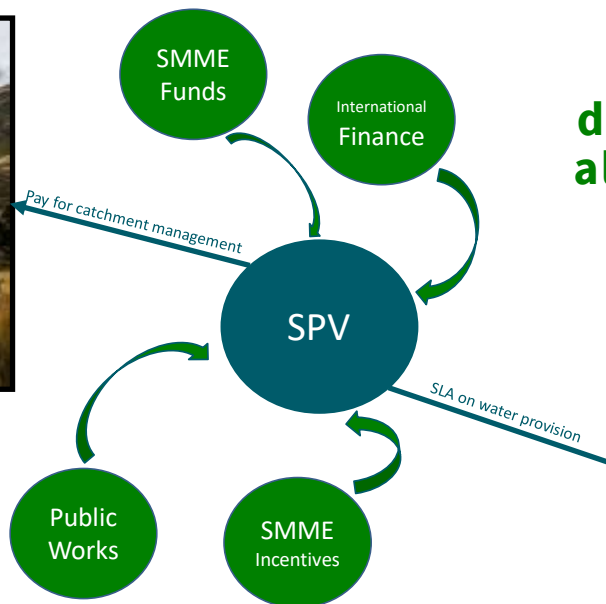

We need stakeholders working together to bring projects that are big enough, have been de-risked and that provide some cash flows

## In Finance

We need blended finance that takes advantage of planned interactions between different forms of finance

11

**Solution development also need not take long**

12

**The key is willing  
and trust**

13

**The NBI  
and SANBI  
grand  
audacious  
plan**

14

## The NBI and SANBI Biodiversity Based Adaptation Audacious Plan

1

### PHASE 1

#### Awareness:

- Why do we need it
  - Finance
  - Adaptation
- Biodiversity based adaptation

2

### PHASE 2

#### Project Identification

3

### PHASE 3

#### Project Design and Financing

4

### PHASE 4

#### Implementation

Invitation to join us
